Peacebuilding Commission
Seventh session
Guinea configuration

Statement by the Guinea configuration of the Peacebuilding Commission

The members of the Guinea configuration of the United Nations Peacebuilding Commission are deeply concerned by the acts of violence committed over the last few days in Guinea, which have left 10 dead and hundreds injured.

The Guinea configuration appeals to all parties to maintain calm and exercise restraint.

It urges all political actors in Guinea to engage constructively with the dialogue process launched by the President of the Republic with a view to the organization of free, transparent, politically and technically credible, peaceful elections that are acceptable to and accepted by all.

The members of the Guinea configuration of the Peacebuilding Commission reiterate their readiness to assist with the preparations for the elections and, in general, to support Guinea on the road to peacebuilding and democracy.
